GHANA HEALTH SERVICE
MUNICIPAL HEALTH DIRECTORATE
P. O. BOX 45
MAMPONTENG - KWABRE

28th January, 2021

NUTRITION REPORT 2021

The nutrition unit of the municipal health directorate seeks to achieve optimal health for all the people in the municipality especially under 5 children and pregnant women to help them navigate away from nutrition conditions such as stunting, oedema, kwashiorkor, undernutrition etc.

Additionally, the unit is mandated to ensure iron folate are distributed in schools to ensure girls are protected from anaemia and also to provide cover for blood loss. Exclusive breastfeeding is also widely encouraged among nursing mothers through education at the child welfare clinic sessions and compliance assessed through dhims 2.

The Nutrition Interventions include;

1. Exclusive Breastfeeding
2. Girl Iron Folate Tablet Supplementation
3. Anaemia Prevention among Pregnant women
4. Growth Monitoring (0-59 months)
5. School Feeding Programme

EXCLUSIVE BREASTFEEDING OUTCOME

1. Total Delivery	5,210
2. Exclusive Breastfeeding	5,115
COVERAGE	98.2%
