### District Economy

The Municipality is economically vibrant. As a result of it being closer to Kumasi and being part of “The Greater Kumasi” and easy accessibility to Social Amenities, it keeps on attracting more investors into the municipality. The economic activities in the Municipality can be grouped under Agriculture, Industry and Services among others.

**Service:** Trading, personal services such as hairdressing and barbering, drinking and ‘chop bar’ operations, transport, tourism and other services make up the service sector. Out of the 60.9% of the population who are employed, 92.8% are in the private sector with 86% of them engaging in private informal economic activities (GSS 2010). Out of the 35.5%, hair dressing and dressmaking stand out as the highest employer. Most of the people in the municipality engage in hairdressing and dressmaking activities with these activities being carried out in all the settlements within the municipality.

**Industry:** Commodities traded range from agricultural produce to industrial products (food and non-food items). These trading activities are both in and out of the municipality. The bulk of the commodities that are brought from Kumasi are mostly industrial (finished) products. The locally produced goods such as handicrafts and Kente are transported to other districts for commercial purposes. Auto mechanic repairs is not a major activity in the district. However, there are a few auto mechanic shops in the municipality with the most popular of them all being situated at Mampong

- **Agriculture**

Agriculture is still an important economic activity since it employs about 40% of the active labor force even though the Municipality is fast becoming more urbanized. The major crops cultivated in the Municipality are food crops such as maize, rice, cassava, yam, plantain, tomato, pepper, garden eggs and okra, which are produced for both subsistence and commercial purposes. Poultry and livestock farming also engage many people in the Municipality. The Planting for Export and Rural Development (PERD) programme has been of immense benefit to farmers within the Municipality. Since the programme's inception in 2019, farmers within the Municipality have annually been supplied with significant quantities of cocoa and coconut seedlings. In (2023), 40 males and 6 females constituting 46 farmers were supplied with 4,350 coconut seedlings, planted in 24.9 hectares of farmland. Another government's flagship programme bringing about positive transformational changes in the Agricultural sector is the Planting for Food and Jobs (PFJ) programme where the Department received and distributed livestock to farmers.

- **Road Network**

The Municipality has a good road network, however, besides the main Kumasi-Mampong Trunk Road, majority of the roads in the municipality are under construction. This has led to heavy traffic congestion on the main truck road. The total road network as at 2024 is 1003km, made up of 61km tarred and 936km untarred road. Under the Ghana Secondary Cities Support Programme to upgrade some selected roads in the Municipality, 6.70km are been tarred.

- **Energy**

Almost all the major communities in the Municipality are connected to the national grid. Extension of electricity to the newly-developed areas is however, a challenge, but the Assembly is working seriously with the ECG office in the municipality to get it solved.

- **Health**

The Municipality has 27 health facilities made up of 2 Government Hospitals, 15 Private Health facilities, 1 Mission Health Hospital, 4 Health centers, and 5 Maternity Homes.

There are 7 Medical Doctors, 5 Physician Assistants, 653 Nurses and other Health Professionals. The 2 top OPD cases are malaria and Upper Respiratory Tract Infection (URTI). Currently, 3 CHPs compounds are fully operational at Kasaam, Bosore and Truba. Construction of Health Centre at kenyase is completed but yet to be furnished with medical equipment while a CHPs compound at Bampenase is still in progress.

- **Education**

The Municipality currently has 252 pre-schools, 251 primary schools, 168 JHS and 10 SHS. There is also one private university, (Garden City University College, Kenyase). The Municipality is equipped with a total number of 2804 teachers; made up of 258 for kindergarten, 656 for primary, 879 for Junior High School and 830 for senior high school. A number of classroom blocks and teachers' quarters have been constructed to support the educational sector. The total number of educational institutions in Kwabre East now stands at 682.

- **Market Centers**

The Assembly has few market facilities, a situation which does not promote local economic development in the municipality. The Assembly in its quest to improve on the market centres renovated the Adanwomase to include some lockable stores to secure the wares of the traders in the market. A market complex under Construction at Mamponteng has stalled since 2012. However, under the Ghana Secondary cities programme, the assembly has completed the Phase one of the 80 number lockable stores with 120 stalls.

- **Water and Sanitation**

Provision of water facilities have been improved significantly. Aside the Mamponteng community that enjoys the Small Water System, the Assembly has put in much effort to construct and mechanize some boreholes across the Municipality. With respect to sanitation, the Municipality is becoming urbanized and therefore effective waste management has become a major challenge. In solid waste management, the Assembly has managed to evacuate one refuse dump within the municipality this year. Some

commitment has also been made to acquire an additional dumping site. In liquid waste management, the Assembly is also in collaboration with other private investors to construct water Closet Public Toilet Facilities throughout the Municipality. There are heaped refuse dumps scattered in the communities. The evacuation of these refuse requires huge resources, that, the Assembly is doing its best to get them evacuated.

- **Tourism**

The Kwabre East Municipality is renowned for its tourism potentials. The main tourist attractions are the manufacturing and sale of traditional textiles such as Kente, Adinkra prints, woodcraft and artifacts. Ahwiaa is noted for wood-carving, Ntonso is also noted for Adinkra print- making and Adanwomase, Wonoo, Bamang and others are renowned for the rich kente-weaving. Another important tourist attraction site is the Antoa Shrine at Antoa which brings not less than 100 people daily to the place. All these sites are less than 10 km from Kumasi, the regional capital and as such boosts the tourism potential of the municipality.

- **Environment**

To provide safe environment for economic activities and habitation, the Assembly embarks on fumigation and regular clean-up exercise of public places and institutions within the municipality. It also organizes public education programmes to sensitize the citizens on promoting safe environment as well as tree planting programmes.

- **SERVICES**

Services offered in the Municipality include petty trading, transport, auto mechanic, hairdressing, dressmaking among others. The services sector employs about 53% of the labor force.

- **INDUSTRY**

The industrial sector consists of a wide range of Micro, Small and Medium Scale manufacturing and processing activities including agro processing, wood-based,

handicrafts, textiles based, metal-based factory, quarrying, construction and other activities. Industry also takes about 7% of the work force.
